

Linecard 2019

Solid state control components, PIN diode switches DC-40GHz, variable attenuators, Detector Logarithmic Video Amplifiers (DLVAs)

Industrial, military and space DROs, PLDROs, TCXOs, amplifiers, synthesizer, Upconverter, components to 100GHz, short lead times

High power solid state amplifiers up to 18GHz, ITAR free export on many designs, High power PIN-Diode switches and limiters from former HILL Engineering

RF filters to 100GHz in many different technologies, diplexer, multiplexer, frequency agile filters, switched filter banks, SDLVAs, European manufacturing

Waveguide components and systems to 60GHz, attenuators, terminations, horns, WG-Coax transitions, rigid sections, flex/twist waveguide assemblies

Coaxial switches to 40GHz, up to 10million cycles, waveguide switches, also space qualified, switching matrices, programmable delay lines

Ultra low phase noise crystal oscillators, smallest form factors, frequency agile synthesizers up to 12GHz with very low phase noise and in band spurious

RF-filters in various technologies, also for space applications, tuneable band pass and band reject filters with manual, electro-mechanic or remote control, FilterWizard software, PIN switches

Lowest phase noise DROs, PLDROs, master oscillators, upconverters, downconverters, system design and project support, German Manufacturing

Digitally-tuned bandpass filters, notch filters and Preselectors with tuning ranges covering 1.5MHz to 3GHz, Integrated Cosite Equipment

Authorized distributor for all HUBER+SUHNER products, World biggest available stock of Astrolab minibend® in lengths fom 2-30inches and test cables

Elastomeric conducting PariPoser, 500k contact cycles, 110GHz+, test and application sockets for BGAs, 0.1-2.0mm pitch sizes, ultra short crown contacts, spring probes

Custom microwave solutions, frequency converters (Up/Down/multi-Band, LNB), SSPAs to 6GHz QFN multi-chip-modules

mm-wave components to 110GHz, amplifiers, mixers, detectors, PLOs, WG-Filters, up/down converters, subsystems, synthesizers

Coaxial and WG components to 50GHz, low and high power couplers, power dividers, combiner, isolators, circulators, terminations, attenuators, short lead times

Isolators and circulators, high power terminations for military and space applications, WG, coaxial, Drop-In and SMD, European manufacturing Millimeter Wave components and subsystems from former Millitech

Beratung und Vertrieb HF- und Mikrowellentechnik
